Summary

Experienced technology leader and software architect with 13+ years of expertise in PHP, MySQL, JavaScript, MongoDB,Redis,Kafka, Docker, microservices, and leading cross-functional teams. Proven ability to deliver scalable, high-quality software solutions aligned with business goals.

Technical Skills

- **Languages**: PHP, JavaScript,HTML,CSS, Java[Spring Boot], Python Basics
- **Frameworks**: MVC[Laraval,Zend,CodeIgnter,Yii], React
- **Tools**: Docker, Git, Redis, RabbitMQ, Kafka,Solr MongoDB, ElasticSearch,Swagger,OpenAPI, Jenkins,
- **Third-Party Integrations**: Instagram, Facebook, Google APIs, Azure Blob, Razorpay, Juspay, AWS Services

- **Databases**: MySQL, NoSQL
- **Cloud Platforms**: Google Cloud
- **Methodologies**: Agile, Scrum
- **DevOps & Server Management**: Apache, AWS (S3, SES, SNS), JIRA, Airflow, Portainer
- **Other**: OOP Concepts, Microservices, Third-Party Integrations, API Development

---

Professional Experience

Pod Lead – Senior Backend Developer
NoBroker Technologies | Bangalore | Feb 2021 – Present

- Led the design and implementation of scalable microservices architecture using PHP and MySQL.

- Served as Scrum Master, managing sprint planning and leading a cross-functional team of 10 developers.

- Optimized Recharge Flow, reducing system response time by 80% through performance tuning and code refactoring.

- Implemented queueing mechanisms across major application modules, enhancing processing efficiency.

- Achieved 90–95% code coverage of business logic through rigorous unit testing, improving system reliability.

Senior Software Engineer
SignCatch Inc | Oct 2014 – Nov 2020

- Led a team of 5 developers, delivering projects on schedule and maintaining high code quality.

- Built robust backend systems and RESTful APIs using PHP, MySQL, and RabbitMQ.

- Integrated third-party payment gateways (Stripe, PayPal), enhancing checkout UX and increasing conversion by 20%.

- Spearheaded Walmart integration, including extensive database migration and performance tuning.

Software Engineer
Webenlive | Oct 2012 – Sep 2014

- Delivered end-to-end web solutions using PHP, SQL, and CodeIgniter for small-to-mid-sized projects.

- Designed and optimized database schemas, significantly improving query performance and scalability.

Software Engineer
Motiva Technologies | Feb 2012 – Oct 2012

- Developed backend solutions in core PHP for eCommerce platforms and small business applications.

- Collaborated with design and QA teams to enhance application speed, functionality, and security.

Education & Achievements

B.Tech in Information Technology

Govt Engineering College, Idukki, 2007-2011

Rising Star Award from NoBroker Technologies
